CITY LIBRARY.

In December, 1859, Dr. John Green presented his choice library of some 70 0 volumes, to the City of Worcester, on certain conditions, the principal of which were, that a suitable building should be erected for its safe keeping and use, and that the books should not be taken from the building except by himself. The library of the Lyceum and Library Association, consisting of between 4 and 5000 vols. was also donated to the city. The two libraries were accepted by the City Council, as the commencement of a free public library; a lot of Lind on Elm Street, near Main, purchased for \$5:00; the sum of \$3000 appropriated for enlarging the library; and a Board of Directors elected, as follows:

John Green, for tife,

D. S Messinger, John J. Power, for one year, Albert Tolman, W. A. Smith, for two years, A. H. Bullock, Sam'l D. Harding, for three years. Dwight Foster, W. W. Rice, for four years. Henry Chapin, Geo. M. Rice, for five years. Stephen Salisbury, Isaac Davis, for six years.

In December of each year, two members are to be chosen for the six ensuing years.

This Board of Directors are to have the entire control and management of the Library, making such regulations as they see best, for the custody and loaning of the books, &c. &c.

HARRIS' PATENT.

The proprietors of the above Machine, thankful for the many flattering testimonials received from their patrons the past year, and for the courtesy of those who have allowed us the privilege of referring to them, respectfully invite all in search of a

MACHINE FOR FAMILY USE,

To call at their salesrooms and make a rigid examination of our DOUBLE THREAD MACHINE, making the justly celebrated GROYER & BAKKR STITCH, that will not slip, though every fourth stitch be cut. It is the BEST and ONLY machine making the above stitch, by authority of the Grover & Baker S. M. Co., at the low price of

FORTY DOLLARS.

The above Machine is, with this improvement, the best low priced one now before the public; and all persons desirous of purchasing, are requested to give it a careful examination before purchasing elsewhere. It is truly a Family Machine, and will perform more work in one hour, than the best seamstress in one day, and do it better.

A new HEMMER which stitches the hems upon the right side of any width, and a new guage for straight sewing, with which you cannot fail to sew a straight seam, adapted to any Sewing Machine, is also offered. Our Single Thread Machines altered to Double Thread, for \$15 each.

With Cover, \$45.

Without Cover, \$40.

EVERY MACHINE IS WARRANTED AND THE WARRANTEE FULFILLED.

GROVER & BAKER'S SEWING MACHINE.

We have taken the Agency for the sale of these celebrated Manufacturing and Family Machines, and have also used them with PERFECT SUCCESS in our Sewing Room for the year past. In recommending this Machine to the public, we do so because we know it is the BEST MACHINE for sewing any material, from the thickest leather to the thinnest muslin, and to make the strongest and most permanent stitch.

The Machine is not complicated, ladies do not have to spend more time to keep the Machine in order than it takes to do the work. It is nearly noiseless in its operation, and any lady of ordinary capacity can learn to operate it in one hour's time; it sews silk, cotton or linen thread from the spools same as they are purchased, without rewinding; the seam has as much elasticity as the most elastic cloth. The

Price for a good Family Machine is only \$50.

There are twenty-six patterns of G. & B. Machines made, so that we can accommodate all customers.

A Circular with full particulars and sample of sewing, and references to the names of some fifty people in Worcester and vicinity, who are using the Machine, will be sent to any address by mail on application.

MACGREGOR'S CELEBRATED VENTILATING

PARLOR, OFFICE AND HALL STOVES AND HOT-AIR FURNACES,

Which have been in use for twelve years, and, with the Recent Improvements, for Economy, Purity of Air, and Ease in Man-

agement, has no Equal.

They can be so regulated as to give any degree of heat required, and unlike other anthracite c alburners, ventila e the apart-ments quite as thorough y as a wood fire or open Franklin, producing a current of air at once moist. pure and agreeable, and as NONE OF THE AIR WHICH COMES IN CONTACT WITH THE FIRE-POT. IS USED FOR RESPIRATION, the tendency to produce headache so much com-plained of by those using stoves and fur-

naces is entirely obviated.

The fire may be continued from one to three days without replenishing.

These stoves are beautiul in design,

and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them for Offices and Stores. as well as the farlor. The inventor chal-lenges THE WORLD to produce an article by which so much pure warm air can be gen-erated from so small an amount of fuel requiring but about fifteen lbs. anthracite coal to warm an ordinary parlor for twenty-four hours without replenishing, and then leaving fire enough to rekindle, without the use of charcoal. The coal is all consumed and no clinkers made, consequently sifting coal is dispensed with. When the Stove is projerly managed, the fire continues through the entire season, without once going out. Our SIXTEEN SIZES are calculated for, and will suit the capacity of the smallest rooms, or the largest Houses, Stores, Halls or Churches, while one size of the Furnace will warm 2:8,000 cubic feet of space. Added to all these qualifications, the purchaser may reasonably expect to save 30 per cent, in 'uel expense.

# EATON'S COLLEGE.

## PREPARATORY DEPARTMENT.

A Preparatory Department for Lads and Misses is opened. It will be thorough and practical in its character, demanding self-reliance and original thinking. In its plan it covers the whole ground necessary for youthful beginners, leaving nothing unsaid, noth- 27 ing unexplained, nothing for the scholar to supply by guessing, but unfolding from the starting points of theory and first truths, a comprehensiveness which will enable the student to give an affirmative answer to that 29 important question, "Understandest thou what thou readest?" Terms \$10 per quarter.
Thorough and practical instruction will be

given in Mathematics, Engineering and Surveying. The utmost care will be given in 31 this department.

New School House at New Worcester.

# PUBLIC SCHOOLS.

The public schools in Worcester have long enjoyed a very high reputation for their excellence: and the larger part of them are well deserving that reputation. They are some forty in number, taught by 6 male and 66 female teachers, and lo-cated in all parts of the city, to accommodate, as nearly as may be, all the children within its boundaries. Those in the center and New Worcester are graded, and admission to their advantages is obtained by application to the Superintendent, at his office in City Hall. The schools are under the charge of a Committee of twentyfour, eight being elected each year, and serving three years, whose deliberations are presided over by the Mayor.

The Classical and English High School is designed to give free instruction in all the higher English studies, as well as in the Latin, Greek and French languages.

Besides the foregoing, a school is kept during the winter months, for the benefit of lads and young men who attend only during that time. For several years, also,

#### FREE EVENING SCHOOLS

have been opened during the winter, for persons of all ages, and both sexes, for whom no other school is provided. Domestics and other persons who are employed during the day, here have an excellent opportunity to commence or pursue their studies under competent teachers, free of cost; and many wisely avail themselves of it.

The evening school this winter, is in the Main street school house.

The commencement of the School year, and the arrangement of the terms and vacations, have been changed during the past year, and are as follows:

"The school year shall commence on the second Monday in May, and be divided into four terms, comprising forty-three weeks, and commencing respectively on the second Monday in May, the first Monday in September, the Monday after Thanksgiving, and the last Monday in Feb-

The Annual Examination shall be made at the close of the Spring term, and all promotions shall be made by the Visiting Committee at that time, and at no other, except in especial cases, to be voted by the Board.

The Vacations in all the schools, except the Suburban, shall be as follows: six weeks preceding the first Monday in September; Thanksgiving week; one week preceding the last Monday in February; and one week preceding the second Monday in May."

Therefore the Fall term will comprise eleven weeks; the Winter term twelve; the Spring, ten, and the Summer, ten.

Hon. A. H. Bullock having presented the city the sum of \$1000, as a fund from the income of which to present annually Medals for excellence in the High School, it has been decided to award twenty SILVER MEDALS to as many of the pupils, who shall excel in the several branches pursued in the School,-the award to be made by a Board of five Judges, to be elected annually by the School Committee, from citizens outside of their own number.

HENRY J. HOWLAND. 212 Main Street.

The following notice was written by J. L. Clarke, Esq., (now of the State Auditor's Office,) and published editorially in the Worcester Transcript, some years since, and the facts there stated are still worthy of attention.

ELEGANT TYPOGRAPHY.—It seems to have been the impression in many minds, that book printing cannot be done in a superior style, except in Boston or some of the larger cities. It is altogether a mistaken opinion, as some of the most perfect and elegant book work we have ever seen is executed at the office of Henry J. Howland, of this city. We have a specimen just now before us, the pamphlet containing a recent sermon occasioned by the death of a distinguished citizen. Its typography cannot be excelled, nor can it suffer by comparison with the most elegant English and American specimens of printing. Those desiring work of this kind, are referred to Mr. Howland. PERUVIAN SYRUP.

OR PROTECTED

Solution of Protoxide of Iron

COMBINED.

This well-known remedy has been used very extensively, and with great success, for the cure of DYSPEPSIA, or impaired and imperfect digestion, and the consequent deterioration of the blood; and for the cure of the following forms of disease, most

of which originate in DYSPEPSIA:

Liver Complaint, Dropsy, Neuralgia and Nerv-lous Affections, Loss of Appetite, Headache, Lan-guor and Depression of Spirits, Carbuncles and Soils, Piles. Sourcy, Affections of the Skin, Consumptive Tendencies, Bronchitis, Diseases peculiar to Females, and all Complaints accompanied by General Debility, and requiring a Tonic and Alterative Medicine.

Note.-The failure of iron as a remedy for Dyspepsia, a bad state of the blood, and the numerous diseases caused thereby, has arisen from the want of such a preparation of Iron as shall enter the stomach in a *Irotoxide* state, and assimilate at once with the blood. This want the PERUVI-AN SYRUP supplies, containing, as it does, iron in the only form in which it is possible for it to enter the circulation. For this reason, the PERUVIAN SYRUP often radically cures diseases in which other preparations of iron and other medicines have been found to be of no avail.

Certificate of A. A. Hayes, M. D., of Boston. It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation,

has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by combination In a way before UNKNOWN; and this solution may replace all the proto-carbonates, citrates, and tartrates, of the Materia Medica.

It is also eminently adapted to take the place of any Protoxide of Iron which Physicians have used in scurvy or Scorbutic attacks; and to meet such cases the Syrup should be found in the med-

icine-chest of every ship.
A. A. HAYES, Assayer to the State of Mass. 16 Boylston Street, Boston.

Certificate of James R. Chilton, M. D., of N. Y. It is well known, that it has been found very difficult to preserve in a palatable form, for a desirable length of time, compounds of the Protoxide of Iron. The PERUVIAN SYRUP, I am pleased to say, will be found to have accomplished this desirable end.

JAMES R. CHILTON, M. D., Chemist. 93 Prince Street, New York, Aug. 8, 1859.

The following certificate is from well-known citizens of Boston :-

The undersigned, having experienced the beneficial effects of the PERUVIAN SYRUP, do not hesitate to recommend it to the attention of the public. Rev. John Pierpont, Peter Harvey, James C. Dunn,

S. H. Kendall, M. D., Samuel May, Thomas C. Amory, Rev. T. Whittemore.

Testimonials from Clergymen. The Rev. JOHN PIERFONT says:—"I have been cured of a troublesome cutaneous disease by the use of the PERUVIAN SYRUP, and it affords me great satisfaction to find that it is making its way into the confidence of the medical profession, for my settled conviction is, that it deserves the confidence, not of that profession alone, but of the public "

The Rev. WARREN BURTON: "I do not hesitate to recommend the PERUVIAN SYRUP to any whose habits render them liable to Headache, Dyspeptic Complaints. Neuralgia, Nervous Affections, and General Debility."

The Rev. Thos. WHITTEMORE:—"I have been using, for some time past, the PERUVIAN SYR-UP. It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

Testimonials from Well-known Physicians. Letter from S. H. Kendall, M. D., Boston, Jan. 22, 1859. I was for many years afflicted with Liver Complaint, of which I was cured in 1854 by the use of the PERUVIAN SYRUP, and have enjoyed perfect health ever since.

S. H. KENDALL, M. D. Letter from FRANCIS DANA, M. D., Boston, June 7, 1859. I have been relieved of a Catarrhal Affection, consequent on Bronchitis, by the use of the PERUVIAN SYRUP: and I would recommend it where a tonic and alterative effect FRANCIS DANA, M. D. is desired.

Letter from Jeremiah Stone, M. D., of Provincetown, Mass. Dec 30, 1858. I have used the PERUVIAN SYRUP in my practice for fifteen months, and it has fulfilled my most sanguine expectations. It is the beau ideal of a preparation of Iron, and as such I feel it to be a duty to recommend it to all medical practitioners. I have used the Syrup in a remarkable case of Scrofulous Affection of the bones and periosteum combined, which effected a complete restoration to health. For such diseases as this, I consider the Syrup an invaluable medicine. JEREMIAH STONE, M. D.

Letter from W. R. Chisholm, M. D. New Bedford, Dec. 25, 1858. I have employed the PERU-VIAN SYRUP successfully in cases of Dyspepsia, Chronic Diarrhaa, Nervous Debility, Neuralgia, Erysipelas, Boils, and Diseases of the Skin; also, Chlorosis, Leucorrhea, Prolapsus Uteri, and in Female Complaints generally. As an alterative tonic the Syrup ought to be used by clergymen, editors, cash officers, clerks, lawyers, and others who use their brains more than their muscles; as well as printers, operatives, tailors, shoemakers, seamstresses, and all those whose occupation confines them in ill-ventilated and overheatfrom nervous debility.

A Professional Cloth Dresser crases the Grease entirely, makes the Garment soft, silky and pliable, and brings original clustre to the most delicate fabric. A Cloth Murderer cleans the nap and drives the grease and dirt into the body of the cloth, makes the garment stiff and hard, and eventually rots it.

CIRCULAR.

We have on hand a good assortment of Pianos manufactured by Woodward & Brown, to which we would call the attention of the public. The facilities they have for manufacturing, has given them the advantage over many, and their Planos have proved themselves to be of superior quality.

We would also call the particular attention of all who are lovers of music, to a New and very Supe-We would also call the particular attention of all who are lovers of music, to a New and very Superior Piano Forte, manufactured only by WM. P. EMERSON, for which we are the *only* authorized Agents for Worcester County. This Piano is an entirely new thing; it has the PATENT SUSPENSION BRIDGE, an improvement that has long been sought for, and has not until now been discovered, to bring out the tone on the two upper octaves, which in *most* Pianos are so deficient. It has also the DIAGONAL SCALE, the wound or bass strings running over the treble, giving them more length, in consequence of which we are enabled to produce double the tone than from those made to the contract of the otherwise. The Suspension Bridge is made entirely of wood, which enables us to get rid of that harsh, metallic tone that so often grates upon the ear. It has also the GRAND DAMPER, which gives a superior finish to the interior; this with the Patent French Double Grand Action, enables us to produce a tone equal to the Grand Plano; in fact, it can be called no other than a Square Grand.
